

Virtual Trial Capabilities

In response to the changing clinical trial environment, PharPoint has recently added extra focus to strengthening and expanding our virtual trial capabilities. Through collaboration with key technology partners such as leading virtual trial provider *Science 37*, PharPoint can provide sponsors with:

- A platform for **telemedicine visits**
- **Visiting clinician support** to complete study procedures
- Support for **home delivery of IP**
- A platform for the collection of **ePRO, ClinRO, and eCRO**

Why work with PharPoint for your **upcoming virtual trial?**

Flexible solutions for clients of all sizes

End-to-end functional clinical research expertise

Repeatable, industry-best standard timelines

Strategic access to trusted technology partners
